To Whom It May Concern,

Thom Grisanti has worked with us at Terry Hoff Construction on our projects for years. Originally our cabinetry and millwork sub for high end custom projects, Thom has recently worked in a Project Coordinator role – scheduling materials purchases, vendors and other job subcontractors – while continuing cabinetry and millwork. He also has the interpersonal skills that have allowed him to interact directly with clients regarding project specifications.

Thom's ability to schedule work and keep jobs moving while maintaining focus on his superior level of craftsmanship is unmatched in my experience as a GC for 30+ years. His knowledge in the field of residential construction is amazing – well beyond his trim carpentry role. His relationships with his employees and with vendors, other trades, and clients are excellent. He also has a very good understanding of building codes.

Thom has been a valuable asset to our company. With his interpersonal skills and his honesty and integrity, I believe he will make an excellent contractor. I hope this letter of unqualified recommendation will help Thom reach his goals.

Respectfully,

Terry Hoff
